

2024 HSC Industrial Technology MAJOR PROJECT

Statement of Intent

Name

Dylan

Paz

Product

Console Table

Intention:

To manufacture a high-quality piece of furniture that complements the aesthetic of my house while being both visually pleasing and practical. I have chosen to design and manufacture a console table.

The console table will incorporate various techniques and complex steps, allowing me to apply the skills and techniques I have developed throughout my years in Industrial Technology. The table will have a rigid, attention-grabbing design that will enhance my home's aesthetic.

Motivation:

My motivation for creating the console table is to design a piece that is both aesthetically pleasing and functional.

Function:

The console table will serve as both storage and decoration.
