

YEAR 12 INDUSTRIAL TECHNOLOGY
MAJOR PROJECT

Statement of Intent

NAME

Katie
Palmer

PRODUCT

Ukulele

My intention is to design and construct a “Ukulele” for my HSC Major Project. This ukulele will be very suitable for decoration around the house or for playing as a musical instrument.

My ukulele will be a concert size and will have very intricate designs throughout the timber. I have chosen to design this because I believe it is a very adequate design to create and this will allow me to be able to construct something with my skill set and to challenge myself more. I plan to make a ukulele that is appealing to everyone.
