FOCUS AREA

Costume

This glamorous two-piece costume design has been greatly inspired by the extravagant, 70s, disco style costume in the Mamma Mia Productions. The garment is crafted using a variety of beads and sequins to reflect the light producing a disco ball effect and stand out on stage. The long-flared sleeves lined with silver lace adds depth to the garment and threetier bell bottom pants form a balanced shape. The sophisticated, luxurious white elaborates the monochrome colour and tone of the garment.
