TITLE

Evening Star

FOCUS AREA

Apparel

My designs purpose lies within its multitude of layers. The closer one gets to the design, the more they uncover the beauty of its craftsmanship, mirroring how meaning and purpose are reflected in small details; much like life.

My major work features an haute couture evening gown with a slim-fitting silhouette. Meticulously hand-sewn, beaded embroidery adorns the sweetheart bodice and a starlight embellished straight skirt convey the continuous feeling of luxe and glamour to my design.

My inspirations were drawn from Versace's exquisitely designed and created garments and the richness in the historical and cultural development of fashion. My French heritage influenced elegance, timelessness and the intrinsic nature of haute couture.
