TITLE

Stary Nights

FOCUS AREA

Apparel

This statement formal wear was inspired by Thierry Mugler's designer garments along with the historical designs of the Elizabethan era. This sophisticated and modern appeal of the design creates the illusion of an hourglass figure, as the hand dyed greys of organza pleats guide the viewers eyes into the centre of the bodice.

The garment displays a combination of balance and line and direction as the elements all work together to give an aesthetic appeal for a formal garment.
