### EXPRESSIVE FORM

I created my abstract artworks with vibrant and fluorescent colours, for example red, orange, yellow, blue, pink, black, purple and green with watercolour and acrylic paints using different types of brushes. I used a mixture of blended strokes and dots in different sizes.

Photographs of me moving and expressing my love for dancing in various positions were placed on top of the paint. I used a scraper to contrast my artwork within the background to create a unique texture. My artworks reflect my fun and creative personality.

Basquiat is one of the artists that has inspired my art making. Picasso and Matisse inspired my love of colour and pattern, challenging me to experiment and allow my creative mind to explore new ways of making art.
