# BODY OF WORK

## Artist Statement

### NAME

Sophie  
Hallet

### TITLE

Immersed in  
Nature

### EXPRESSIVE FORM

Ceramics x13

My body of work is inspired by my connection to the Australian landscape. I set myself the challenge of building ceramic vessels that capture the unique elements of nature and the nostalgia of family holidays spent exploring. My artmaking process included drawing, photography, designing vessels, and experimenting with different types of clay and surfaces. Each group of ceramics represent a different landscape and a unique meaning of time spent with family.
