

Christian Studies

Our Purpose

Explore the truth and beauty of the Christian faith as you form your own beliefs.

Understand

We seek to understand multiple perspectives. We cannot form a complete opinion without engaging with the strongest opposite stances. We will learn how to think, not what to think.

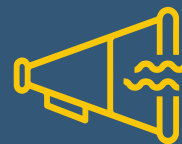

Critique

Having understood the subject matter, we question it. If we do not, we may be fooled or arrive at a superficial understanding. We don't debate, we discuss to discover truth.

Reflect

We quiet our minds and consolidate the deep truths we learned that lesson.

Communicate

In order to add something valuable to complex conversations and society, we develop the skills to articulate our ideas in a clear, kind, and persuasive way.
