

## 2024 HSC Design & Technology MAJOR PROJECT

# Designer Statement

### Name

Toby  
McConnell

### Title

Hailmate

### Area of Design

Product Design

This product was designed to be a quick and easy-to-install product that protects cars from potentially damaging hailstones.

It must cover the roof, trunk and bonnet of the car, but not expand too far beyond the area of the vehicle. It needed to be compact for storage within the vehicle while not in use.
