

Dear Parents

The **Reef @ Risk SOW** is an exciting program designed specifically for students in Year 11 who are interested in the incredible environment within the Great Barrier Reef, with specific links for those studying Geography and Biology in stage 6. With the program just around the corner, I write to provide further important information as below.

All students & parents click on the link below and complete the information and waiver.

I have highlighted (in the screenshot below) the link you need to click on to complete the booking form (it takes you to the main website for completion), also highlighted is the 'Submit Waiver' tab that you click, and both students and parents need to read, complete, and sign this waiver.

The rest of the info on that website is for students and parents about the trip.
